LEVEL 5 Diploma in Computing with Business Management

L4DC BM

***Equivalent to the Second Year of
bachelor Degree in the UK***

The Level 5 Diploma in Computing (with Business Management) forms the second year of the NCC Education degree pathway, building directly on the foundational knowledge gained in the Level 4 Diploma in Business Information Technology.

This qualification deepens students' understanding across key areas such as information systems analysis, database development, and business operations. The curriculum blends academic theory with practical application, equipping learners with the skills and insight needed to contribute meaningfully to both IT and business environments.

Upon successful completion, students are eligible to progress to the final year of a degree through several routes or direct entry into one of many universities worldwide that recognise NCC Education qualifications.

EQUIVALENT TO THE SECOND YEAR OF A COMPUTING DEGREE IN THE UK UNIVERSITY SYSTEM

Britain International Academy offers NCC Education Level 5 Diploma in Computing with Business Management (L5DC BM) is a UK Ofqual-regulated qualification that represents the second year of a Computing or Business degree pathway. It is academically equivalent to the second year of a UK university degree in IT.

CREDITS: 120

MODE OF STUDY: IN CLASS

- Professional and Career Development in IT – 20 Credits

To complete the qualification a student must study and pass units to the total of 120 credits

WHAT'S NEXT?

Students who successfully complete the NCC Education Level 5 Diploma in Computing (L5DC) are eligible to advance to the final year of one of the following top-up degree programs:

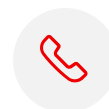

- BSc (Hons) Business Computing and Information Systems
Delivered fully online by NCC Education, this program is validated and awarded by the University of Central Lancashire (UCLan).
- BSc (Hons) Computing
Offered at selected NCC Education Accredited Partner Centres, this degree is awarded by the University of Greenwich.

Alternatively, graduates may apply directly to the third year of a relevant university degree program.
